AUS / APJ

📅 November 25, 2025

🕒 2:00 p.m. AEDT |
12:00 p.m. SGT

Audience: All Learners

We'll dive into how Explain Plans work, explore how different join scenarios are presented, and learn to monitor spool usage throughout the query lifecycle. The session will also cover the impact of redistribution on performance and how statistics influence the optimizer's decisions.

This session is ideal for those who attended the 101 April training and want to build on their foundational knowledge, as well as for data professionals looking to optimize Teradata queries and improve system efficiency.

Pick your slots for the live sessions today, and share this email with your colleagues.

Feel free to listen to the recordings at your convenience on our [Teradata Virtual User Groups \(VUG\) workspace](#).
