New Course: Introduction to Vector Store

In a world where over 80% of data is unstructured, traditional databases fall short. Introduction to Vector Store is your gateway to understanding

how modern AI systems are unlocking the true value of unstructured data —text, images, audio, and more.

This course introduces you to the foundational concepts of vector embeddings, similarity search, and how Enterprise Vector Stores go beyond traditional and vector databases to power next-generation AI use cases.

Live Demo: Simplify Platform Modernization With Automated Migration Tools

Wrestling with the complexity and costs of fragmented multisystem architectures? Join our live demo on July 17, 2025, at 8:00 AM Pacific Time and see how automated migration tools and workload optimization enable the transition to AI-ready architecture, dramatically reducing infrastructure requirements, slashing costs and operational overhead.

See how to:

- Automate schema migration and eliminate manual coding
- Ensure data integrity throughout your entire migration
- Strategically route analytics and AI/ML workloads to optimal resources
- Get step-by-step guidance for successful modernization

Presenters:

John Myers, Sr Director of Market Intelligence, Teradata

Muhammad Bilal Anjum, Director of Consulting Data Engineering, Teradata

Date: Thursday, 17 July, 2025

8:00 AM PT | 11:00 AM ET | 4:00 PM BST | 5:00 PM CEST
