

Upcoming Virtual User Group

Turning unstructured data into decisions, External Models & Vector Databases for Finance

EMEA / AMS

 May 20, 2026

 04:00 p.m. CEST |
10:00 a.m. EDT

AUS / APJ

 May 20, 2026

 02:00 p.m. AEDT |
12:00 p.m. SGT

Audience: All Learners

Join our upcoming **Teradata Virtual User Group (VUG)** session, we will be exploring how Analytics machine learning capabilities can help predict which customers are likely to complain using functions like **Scale, Sample, Decision Forest, and Classification Evaluator**. Then, we'll explore how **Bring Your Own Model** capabilities, including a **Hugging Face Embedding Model** and **KMeans clustering**, help analyze and categorize what those complaints are about. See how these tools work together to solve real-world use cases with a demo we will run using these capabilities.

Pick your slots for the live sessions today, and share this email with your colleagues.

Feel free to listen to the recordings at your convenience on our [Teradata Virtual User Groups \(VUG\) workspace](#).
