

# Administrator

I am primarily responsible for system performance and workload management and to make sure the platform is available online. I often load external data and deal with integration across environments. I'm also known as: Analytic Consultant, IT Enterprise Data Management, or EDW DBA.

Tailored for you, the Administrator subscription includes several hours of on-demand content that

that will help you build your skills to unlock the power of data.

Select this subscription if you want to learn about Teradata Database analytics and design, Teradata SQL, and other topics and tools that are critical to excelling in your role.
