

The Virtual Experience

Autonomous Intelligence World Tour

We just kicked off our AgentBuilder Bootcamp at the Teradata Autonomous Intelligence World Tour —and the recording is **now available**.

The full session, including the walkthrough of AgentStack, our multi-modal VectorStore, and the hands-on AgentBuilder Bootcamp, is now available on-demand as a recording. It's the perfect way to learn how to take an agent from concept → prompt → production at your own pace.

If you're looking to go a step further and actually start building your own AI agents, we've put together a practical guide to help you get started.

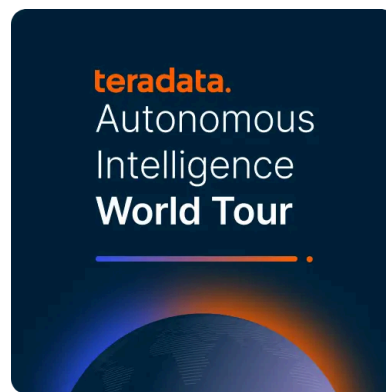

[Watch On-Demand →](#)

Inside, you'll learn:

- What agents really are (beyond the hype)
- How they work under the hood using LLM reasoning + tools
- How to build and deploy production-ready agents step-by-step

To access the hands-on examples, you'll just need to create a free **ClearScape Analytics Experience** account — it only takes a minute and gives you a live environment to start building straight away.

Visit the **Teradata Autonomous Intelligence World Tour** page to explore upcoming stops.

Stop Moving Data: How In-Database Analytics Shrinks Time to Insight

EMEA / AMS

 April 15, 2026

 04:00 p.m. CEST |
10:00 a.m. EDT

AUS / APJ

 April 15, 2026

 02:00 p.m. AEDT |
12:00 p.m. SGT

Audience: All Learners

Join our upcoming **Virtual User Groups (VUG)** focused session where we explore how using Teradata ClearScape Analytical capabilities help uncover insights. We will also be running a demo to learn how **DataPrep** capabilities quickly filters complex datasets, **GeoSpatial** calculates how far customers travel, and **Vantage Analytics Library** functions helps assess whether travel impacts their satisfaction. See how these tools work together to solve real-world use cases.

Hear from experts, see practical examples, and connect with peers who are exploring modern AI architectures with Teradata.

Pick your slots for the live sessions today, and share this email with your colleagues.

Feel free to listen to the recordings at your convenience on our [Teradata Virtual User Groups \(VUG\) workspace](#).

Live Demo

Scaling Agentic RAG With New Enterprise Vector Store Capabilities

 Tuesday, April 21, 2026

8 a.m. PT | 11 a.m. ET | 4 p.m. BST (UK) | 4 p.m. CEST

Presenters:

Tamia van Geloven, Product Manager, AI Analytics, Teradata

Kevin Sturgeon, Director, Cloud Engineering, Teradata

Most teams bolt on standalone vector stores—and end up with more silos, more complexity, and limited scale. On April 21, see how Teradata's Enterprise Vector Store eliminates that problem entirely by unifying vectors

and enterprise data in one governed platform.

In this demo, you'll see how to:

- Build a vector store in the UI—no separate tool required
- Generate embeddings without code
- Run hybrid search over real regulatory content
- Operationalize RAG at enterprise scale, without new infrastructure
